**DETAILED ACTION**

**Art Rejections:**

1. The text of 35 U.S.C. 103(a) not cited here can be found in the first office action.

2. Claims 9-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Allen et al, U.S. pat. No. 6,785,891.

As to claims 9-14, Allen discloses a system and method for sharing data between multiple applications in a client comprising:

- a) defining and creating a first data structure for storing a first data type definition (see col 5, lines 23-33),
- b) storing a first data object from a first application in the first data structure (col 7, lines 20-30),
- c) retrieving the first data object in a second application by accessing the first data structure according to the first data type definition (col 7, lines 39-53),
- d) outputting the first data object from the second application to the user (see col 7, line 54 - col 8, line 6).

Allen does not explicitly teach defining data type definition, i.e. variables, for exchanging between two specific applications. It would have been obvious to one of ordinary skill in the art at the time of the invention to utilize Allen's

teachings to define or select any variables or event objects for sharing data between any browser-based applications (see col 5, lines 53-63).

Per claims 15-17, it would have been further obvious to one skilled in the art that Allen's invention is applicable to any browser with a conventional communication interface.

**Allowable Subject Matter:**

3. Claims 1-8 are allowed over prior art of record.

**Response to Amendment:**

4. Applicant's arguments filed 7/15/04 with respect to claims 9-17 are moot in view of new grounds of rejection set forth above.

**Conclusion:**

5. The following references cited by the examiner but not relied upon are considered pertinent to applicant's disclosure.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Viet Vu whose telephone number is (703) 305-9597. The examiner can normally be reached on Monday through Friday from 8:00am to 4:00pm.
